    - Need For a Project Manager
  - Challenges/opportunities moving forward
- Keeping the Public Informed – Damon with group discussion
- Other Good of the Order

**For Reference WAC 173-100-100**

(6) An implementation section comprised of:

(a) A detailed work plan for implementing each aspect of the groundwater management strategies as presented in the recommendations section. For each recommended management action, the parties responsible for initiating the action and a schedule for implementation shall be identified. Where possible, the implementation plan should include specifically worded statements such as model ordinances, recommended governmental policy statements, interagency agreements, proposed legislative changes, and proposed amendments to local comprehensive plans, coordinated water system plans, basin management programs, and others as appropriate;

Certified on 10/25/2019 WAC 173-100-100 Page 2

(b) A monitoring system for evaluating the effectiveness of the program;

(c) A process for the periodic review and revision of the groundwater management program.
