Last Noticed time of call

Description While driving past the facility the caller smelled an odor described as the worst outhouse odor you could imagine. It was just short of making your eyes water.

Action RM I drove past the facility at 5:30 PM and not a strong odor of mushroom compost near the intersection of Marvin and Steilacoom Roads. I also briefly

NOV# noticed it shortly thereafter at the intersection of Marvin Road and Pacific Avenue.

Description Party believes her daughter's health has been impacted by the odors from Ostrum's. She says it has been a problem for years, and is very frustrated about this issue.
Action I advised the complainant to call back when there is a particularly bad episode and to consider filling a formal complaint. As she is not complaining of any immediate impacts, no further action will be taken on this complaint.
I referred her to Denise Laflamme of WSDOH for further info or followup on health related issues.

Description There has been minimal wind in the area this morning. The neighborhood has a real sour old stinky outhouse odor from Ostrom's. The odor has been off and on for several days.

Action RM: The complaint was left on my voicemail. I did not come into the office until 12:30 PM. With the fickle nature of odors I did not visit the location due to the length of time between the complaint and my knowledge of it.

Description There is a strong odor from the mushroom farm. At 7 AM it was strong enough to "choke a horse." It started out very ammonia like. It has since tapered off to be pretty smelly. It irritates the mucus membranes when breathing.

Action

Description Odors from mushroom farm are strong today. She had to leave her yard because of it.

Action

Followed up over the phone on Monday with Chris Street at Ostroms and follow-up call to complainant. Nothing out of the ordinary at the farm at the time odors were noted. Complainant will track problem and consider filling formal complaint in the future.

Description The complainant notices odor this morning about 8:00 AM and he is pretty sure it was from OSTROMS Mushroom Farm. He said it is not as strong anymore but this morning was really bad.

Action 3/24/04@10:10AM-I called OSTROM and talk to Sue regarding the odor complaint that we received and she said that she hasn't noticed anything different
NOV# but will ask someone to look into it and get back to us.

3/24/04@1:20PM-I called and talk to Sue from Ostrom and she said that the reason for the odor this morning was probably because of the wind but there wasn't any upsetting condition with their process.

Description Complaint regarding odors this morning.

Action

NOV#

In response to this and three other complaints from residents of the Christa Heights neighborhood I visited the Nutrium LLC facility on Hogum Bay Rd. at approximately 10:00 AM. At the time of my visit conditions were partly cloudy with temperatures in the upper 40s (F). Winds were 0-5 MPH out of the south to southwest. Upon arrival at the plant I noted that facility was not operating. I did not note any objectionable odors of any kind in the vicinity of the Nutrium plant. I proceeded to the office and verified that they had not operated the spray-drying equipment since two days prior. A Nutrium employee in the office stated that on his way in to work at about 7:00 AM he had noted strong odors he associated with the Ostrom mushroom farm in the vicinity of Hawks Prairie Road.

Based on the fact that Nutriom was not operating at the time of the complaint, and that the prevailing wind was away from the area where odors were reported, I concluded that Nutriom was not the source of odor complaints received by ORCAA on the morning of 3/26/03. I proceeded to survey the area further to determine the source of odors.

I drove to the vicinity of the Ostroms Mushroom Farm on Steilacoom Road and verified a strong odor of mushroom compost in the Hawk's Ridge development adjacent to the Mushroom Farm on the north side. I observed that the winds were from the south southwest. The steam plume from the Ostrom's Phase 1 compost ventilation stack was being blown to the north northeast. I drove north on Marvin Road and was able to detect the odor as far north as Martin Way, where I turned east, proceeding to Meridian Road where I turned north, crossing Interstate 5. At Willamette Drive I turned west and proceeded to stop at various points to check for detectable odors. At the entrance to the driveway of I-5 Signs I spoke with a gentleman who was working on a piece of equipment (a man lift). I asked if he had noted any odors during the morning and he stated that he had. He had been servicing the lift earlier in the morning and had it up to a height of approximately 25 feet where he noted a strong odor of "something rotten" which he indicated was coming from the south. I then proceeded to the recycling plaza at the Hawks Prairie transfer station and could once again detect the odor, with the wind now blowing stronger from the south. I proceeded to the Lakeside Industries office, adjacent to the recycling facility to the south. At that location I could detect a fair to moderate odor while looking directly south toward the freeway into the wind which was now 5-10 mph out of the south southwest. I concluded that the odor complaints ORCAA had received earlier that day were attributable to the Ostrom Mushroom Farm. I then returned to the office.

First Noticed

Last Noticed time of call

Description The caller indicated she could smell Ostrom's while working in her yard. The odor was noticeable, but not strong enough to be forced to go inside.

Action I drove through the area at 3:23 PM. I did not detect Ostrom's odor in the area. Judging by flags on Pacific Ave. the wind was N to NE at approximately 5-7 mph.

NOV#

In response to an outdoor burn complaint I drove by Ostrom's at 10:15 PM 3/28/04. The compost odor was very strong on Steilacoom Rd for approximately the first 100 yards east of Marvin Road.
